FOR IMMEDIATE RELEASE

Transcend announced it has implemented an Enterprise ShoreTel VoIP Solution for Digineer

Minneapolis, November 3, 2006 -- Transcend Communications, Inc., announced it has deployed an agreement with Digineer's Corporate Facility located in Plymouth, Minnesota to provide the ShoreTel VoIP Solution and Enterprise Communications System.

"Due to business growth we were prompted to search for a new phone system and we found that ShoreTel could handle our needs and the direction we were taking," said Jeff Roy, Director of IT. "The benefits of the ShoreTel System from an IT perspective are the ease of administration, being able to move and change our processes quickly. A benefit from a customer standpoint is that it's a very customer-friendly system, making it is easy for them to locate who they need," said Roy. "Overall it's a great system and working with Transcend from the planning stages through implementation was a worry-free experience," said Roy.

About Digineer

Headquartered in Minneapolis, Minnesota, Digineer is a technology and management consulting firm with an established record of providing high quality services to our clients. They offer a unique mix of Internet strategy, management consulting, and technology services. For more information, please visit www.digineer.com.

About Transcend Communications

The company was established in 1985 and has over 4,000 customers. By definition, Transcend Communications is a value-added Reseller and systems integrator that designs, develops, deploys and supports network, data security and IP telephony solutions. By reputation, Transcend Communications is known for taking the lead in providing customers with state-of-the-art technology to maximize the productivity of their data infrastructure. Simply put companies that require more from their networks count on Transcend Communications to take them to the next level. For more information visit us at <http://transcendinc.net>.

About ShoreTel

ShoreTel is the innovation leader in delivering IP telephony solutions to the enterprise. The spark for this innovation emerged out of frustration. While purchasing a phone system at a previous venture, ShoreTel co-founders were confounded by products short on features and long on complexity. So they created a better solution. The manifestation of their vision is a simple and affordable intelligent phone system that can be easily integrated into a global IP communications infrastructure.
